

Bus services through Antrobus

Network Warrington have confirmed they are re-introducing a 45 service through Antrobus – every 2 hours in each direction. This follows on from the withdrawal of GHA Bus services and the agreement of a small subsidy from Cheshire West. The service begins on 30 April and will be on the website from that date. Leaflets are available now from bus stations.

Please note this route will be reviewed for commercial viability. **The service must be used by villagers if it is to remain. “If you don’t use it you lose it.”**
