

**“Smyle” - the Cheshire West smartphone app for reporting highways faults**

This app is convenient useful for reporting the location of potholes and any highways problem and sending photos as evidence.

- It's easy to download from Google Play or Apple Store – simply search on smyle.
- It's easy to use – turn it on, take a photo, and add a description. It grabs your GPS location automatically.
- You provide your contact details only the first time you use it.
